

Pure Water Everywhere You Go! The Green Alternative To Bottled Water

Outdoors

No need to haul bottled water

Amusement Parks

No more buying expensive bottled water

Sports

Kids can drink pure filtered water everywhere they play

Travel

Carry empty through security and fill in the terminal

Studies show that 75% of the water we consume is away from home. Simply take along your empty, lightweight filter bottle and fill it up when you get to your destination.

Never buy expensive bottled water again.

Our filters remove up to 99.99% of contaminants and pollutants found in fresh water supplies.

Our 18 oz. "RunAbout" filtration bottle produces over 50 gallons of great-tasting filtered water. That's equal to about 400 bottles of bottled water!
